FEATURES

Action Area Countertops

Our action area is seamless, easy to clean and resistant to bio-hazards. We recognize the health risks during patient care and we are focused on using material that helps to alleviate fluid from seeping into the Road Rescue interior.

Formed Seamless Upholstery

Lower band seat, and backrest cushions utilize vacuum formed seamless cushions.

Visit our website to find one of our professional dealers and get on your way to owning a TransMedic by Road Rescue.

Some of the options shown are not standard. Please contact your Road Rescue dealer for more information.
