

Performance Driven Since 1973

Since its introduction in 1998, the Wheeled Coach Crusader Plus™ has been the industry-leading workhorse, performing with distinction in both small and large fleets. Now, taking full advantage of the Chevrolet platform, the Crusader Plus™ has been improved with a longer wheelbase chassis and spacious cab design, providing an additional 5" of patient compartment length and more comfort for the crew.

Powered by the quiet and reliable Duramax turbo diesel, performance is never compromised—and neither is safety. The Crusader Plus™ features Wheeled Coach's exclusive EnterSafe™ roof, a patented design that allows for the addition of two angled, roof-mounted warning lights, providing an extra visual alert that is so important at intersections.

All of this and more, with the fastest delivery time in the industry.
